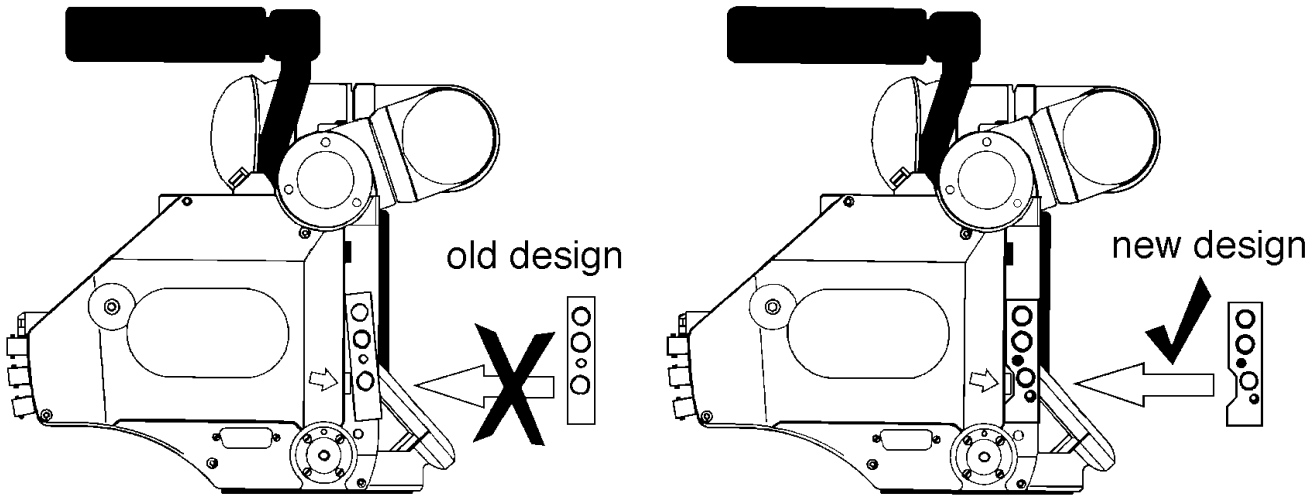
ARRI TECHNICAL NOTE P-1007

New 24 V Splitter Box for 435
July 20, 2000

Summary
This note provides information on a 24 V Splitter Box that should be used with the 435 IVS.

Description
The old 24 V Splitter Box (also called “ZV-3”, “24V Adapter”, or “Multi-Accessory Connector Box, 24 V”) no longer fits on the 435 camera body when the Integrated Video System (IVS) is installed. A new 24 V Splitter Box with a re-designed casing takes its place. Please contact your local ARRI dealer for further information.



Part Numbers
IVS for NTSC .....K2.47232.0 (US catalog number: 339-834)
IVS for PAL .....K2.47118.0 (US catalog number: 339-835)
435 24V Splitter Box .....K2.52001.0 (US catalog number: 339-510)
Please note that the new 24 V Splitter box has a modified design, but retains the old part number.

For more information on this issue, please contact your local ARRI representative.
